

MobileEyes® Proposal for Whitestown, IN

Customer Name:	Whitestown Building Department
Main Contact:	David Taylor Director Whitestown Building Department 317-942-1553
Proposal Prepared By:	Tom Gorman Operations Manager TradeMaster, Inc. 586-899-8651
Proposal Date:	07/10/17 Proposal and associated pricing expire 90 days from proposal date.
Proposal Number:	Whitestown, IN-071017-Building Inspector
Proposal Version Number:	1.0

Overview

MobileEyes® is an innovative inspection solution developed and distributed exclusively by TradeMaster, Inc. and its licensed resellers. The MobileEyes inspection solution can be implemented as a standalone solution or integrated with 3rd party records management systems or other MobileEyes solutions that support new construction, pre-incident planning, system inspections, and/or computer aided dispatch. The MobileEyes inspection solution helps agencies and departments increase the number of inspections completed by reducing the time, rework, and paperwork associated with capturing inspection data. MobileEyes can help accomplish the following:

- Increase the number, accuracy, and timeliness of inspections.
- Eliminate most paper from the inspection process.
- Eliminate the re-keying of data.
- Get code violations corrected faster.
- Enable faster report delivery to the business owner.
- Improve tracking and scheduling of inspections and reinspections.
- Manage permits, business licenses, and fees.
- Enable faster inspection and permit fee collection.
- Attach pre-incident planning drawings to inspection records.
- Share pre-plan information with incident commanders, first responders and mutual aid partners.
- Receive timely system inspection results from sprinkler/alarm contractors.

This proposal includes everything needed for a successful MobileEyes implementation—all requested hardware, software, onboard codes, data load, and training required for the department's inspectors.

Specific Requirements & Scope

Software

- 3 licenses of **MobileEyes Building Inspector** permitting, plan review, and inspection management software, pre-loaded with your required published codes & standards. (See specific list in price sheet.) All codes and standards requested will be the Indiana amended published versions.

Hardware

- No computer hardware is included within the scope of this proposal.

Minimum computer hardware specifications to run MobileEyes:

Screen size: 10"
Storage: 128 GB
RAM: 4 GB
OS: Windows 8, or 10 (touch screen tablets)
Input Method: Touch and active stylus

Recommended Tablet: Microsoft Surface Pro 4
Screen Size: 12.3"
Storage: 128 GB min.
RAM: 4 GB min.
OS: Windows 10
Processor: 6th Gen Intel® Core™ m3 min.
Input Method: Touch and active stylus

Recommended Protective Case for the Surface Pro 4: Incipio Capture Rugged Case w/ shoulder strap for convenient carrying.

Web – All of the set up, customization, and reporting tasks in MobileEyes are done on the Web in your own secure MobileEyes database.

- No hassles with local servers, Efficient software upgrades, Fast troubleshooting of any problems, Secure data

Internet Explorer and a high-speed internet connection are the only technical requirements to use MobileEyes on the Web.

Training

- **MobileEyes Administrator Training** – Two 3-hour Webinars to provide instruction on the setup and administrative operation of MobileEyes Building Inspector.
- **MobileEyes Workflow/Operations Training** – One 2-day onsite training program to provide instruction on the use and operation of MobileEyes Building Inspector.
- **Training and Job Aids** – Includes the creation of a one-page top-down flowchart of the permitting, plan review, and inspection process. Also includes the creation of customized procedure guides with detailed job instructions and screen shots.

Implementation Services

This includes the following services:

-
- Account setup
 - Documentation of business process
 - Loading of ICC and NFPA code sets
 - Software setup and customization
 - Configuration of plan review and inspection checklists

Ongoing Support

-
- Help Desk support is provided between the hours of 8AM and 8PM EST excluding weekends and holidays. The Help Desk is staffed by native English speaking, certified MobileEyes instructors. Technical help desk support is included in the software license price.
 - Complete infrastructure support and data center services including system monitoring, nightly backups and off-site data storage are provided by *Secure-24*, our data center and information security provider. *Secure-24* specializes in performance, data security, and system availability. All associated data center services are included in the MobileEyes software license fee. Additional information describing the hosting environment and related services is available upon request.

Annual Software Upgrades

-
- MobileEyes is typically upgraded one or more times annually to reflect new ideas and suggestions from our customers and TradeMaster development team members. All software upgrades are included as part of the annual software license fee.

NFPA and ICC Content

-
- Whereas some providers of inspection software products knowingly or unknowingly violate the copyrights of content publishers, TradeMaster takes these intellectual property matters quite seriously. TradeMaster has entered into formal license agreements with both *International Code Council* and *NFPA* that allow us to provide required content on behalf of our customers without violating the strict copyright language employed by these publishers. These agreements protect TradeMaster and our customers while respecting the intellectual property rights of our published content suppliers.

Department Responsibilities

We will need the following to get started:

- Signed proposal Summary Page.
 - Purchase documentation reflecting this proposal scope. **PO can be faxed to our office at (678) 364-1618.**
 - Identify all ICC, NFPA, and local codes and standards to be loaded.
 - Availability of your personnel for implementation and training delivered either online or onsite at your facility where network connectivity is available.
-
