WORK AND MATERIALS

All materials and equipment are guaranteed to be as specified. All work is to be completed in a workmanlike manner according to standard and accepted practices, and conforming to local codes. Owner is responsible for securing correct power to the main fuse box location. Whatever necessary wiring we install will comply with local code requirements.

CONDITIONS

- (a) It is understood and agreed that there are no conditions, verbal or otherwise, except as written in this order.
- (b) Any alterations or deviation from specifications involving extra costs will be executed only upon written orders and will become an extra charge over and above the estimate. All agreements are contingent upon strikes, accidents or any delays beyond our control. Owner to carry all necessary insurance to cover loss of equipment and materials due to fire, theft, etc. Our workers are fully covered by Workmens Compensation Insurance.

WARRANTY AND SERVICE

After installation, a qualified representative will start, test, and provide instructions on the use of the equipment.

All equipment, material, and labor furnished by us will bear a one-year warranty from the date of installation against defects in workmanship and material. All other parts and components are warranted in accordance with the manufacturer's warranty. Warranties and literature pertaining to equipment to be installed, are to be delivered to the hands of the owner.

Service under this warranty will be provided for 1 year after installation but does not include filter or fuse replacement, lighting pilot lights, or setting thermostats. Warranty service will be provided during normal working hours except for true emergency calls.
