Attachments to Town of Whiteland Tax Abatement Application

10. **On a separate page, briefly describe the nature of the business of your company.**

The applicant is a real estate professional with 20 years of experience undertaking industrial/commercial development. This development, once completely online, will add more than 2 million square feet of developed office and logistics space to the Town of Whitestown, and constitute more than \$94 million of hard cost investment.

The developer is confident that the strength of the community will allow for full utilization of the facilities over time. The market has already demonstrated interest in the product as evidenced by leasing activity for Buildings 1 and 2. Expected uses of the buildings include: logistics, distribution, warehouse manufacturing and office.

11. **On a separate page, briefly describe the proposed real estate improvements to be constructed by your company at the project location.**

This phase of the project (encompassed in this application) will constitute the construction of two (2) "flex" style buildings, having both office and distribution space. Building 3 will be approximately 319,336 square feet and Building 4 will be approximately 661,440 square feet. The buildings will all be constructed with insulated precast panels and have ceiling height of 32' clear for Building 3 and 36' clear for Building 4.

Site improvements will include built-out office space, surface parking and landscaping, and onsite water runoff management. The fire safety system will consist of an ESFR Fire Suppression System with a 1,500 GPM Fire Pump. Heating will be provided by Energy Rotation Units to maintain 55 degrees F at an outside temperature of 0 degrees F.

17. **On a separate page, please give a detailed description of what the impact on your business will be if the proposed real property improvement is not constructed (e.g. loss of jobs, contract cancellations, loss of production, change in location, etc.).**

As envisioned by the developer and the Town when the project was first reviewed by the Town and when the TIF and the ERA were approved, this development will unfold in phases. With phase one nearly complete and market interest in the product, phase two is ready to move forward. If the abatement is not awarded, phase two cannot move forward. If that occurs, nearly a million square feet of commercial space will not be constructed, which could prevent growing or expanding companies from calling Whitestown home and will continue to leave the site with a static assessed value.

19. **Attach a schedule of the proposed tax abatement percentages in each year (note, if the proposed tax abatement schedule is other than a traditional tax abatement schedule the Town may impose additional fees for consideration).**

<u>Year</u>	<u>% of Assessed Value Exempt From Real Property Taxes</u>
1	100%
2	95%
3	80%
4	65%
5	50%
6	40%
