Comprehensive Plan

Land Use Plan

The 2015 Comprehensive Plan classifies the area as Mixed Use Open Space Recreation and located within Special development area 7 (outlined in RED).

Goals and Objectives Special Development Area 7

“This area is located between the Legacy Core and Interstate 65 along the Albert S. White Boulevard. This area is important because it serves as a transition between the more intense industrial uses currently planned for Anson and the existing and planned single-family areas in northeastern Whitestown. This area will likely need to include some higher density residential to help serve and as a transitional use, but may also contain smaller lot single-family uses. It is also likely include some neighborhood retail uses. These may include pharmacy, grocery, and other smaller retail uses, but “big box” retail uses would not be appropriate in this area. It is also important that the commercial in this area not injure market potential for redevelopment opportunities in the Legacy Core and the more intense retail uses that may be possible in Development Area 6. It is also anticipated that much of this area may include urban agriculture and open space uses as transitional uses between existing lower density residential uses to the east and the planned industrial uses to the west.”

Staff Comments

1. The rezoning process is a legislative act. The Plan Commission will make a recommendation to the Town Council who then has the final say. Because this is a legislative act, the Plan Commission can require that certain commitments be made part of the rezoning and then run with the land.
2. Before being further developed, the project will require Subdivision approval and/or Development Plan approval by the Plan Commission.
3. The Plan Commission should maintain and enforce the Zoning Ordinance, Subdivision Control Ordinance, and related ordinances in order to achieve the goals of the Comprehensive Plan.
4. The proposed LB zoning allows a variety of uses and specific setback, landscaping and bufferyard requirements.
5. The proposed future use follows the intent of the Whitestown Comprehensive Plan
