#### **Attachments to Town of Whitestown Tax Abatement Application**

10. On a separate page, briefly describe the nature of the business of your company.

The applicant is a real estate professional with 20 years of experience undertaking industrial/commercial development. This development, once completely online, will add more than 2 million square feet of developed office and logistics space to the Town of Whitestown, and constitute more than \$94 million of hard cost investment.

The developer is confident that the strength of the community will allow for full utilization of the facilities over time. The market has already demonstrated interest in the product as evidenced by leasing activity for Buildings 1 through 4. Expected uses of the buildings include logistics, distribution, warehouse manufacturing and office.

11. On a separate page, briefly describe the proposed real estate improvements to be constructed by your company at the project location.

This phase of the project (encompassed in this application) will constitute the construction of two (2) "flex" style buildings, having both office and distribution space. Both buildings will have **a** footprint of less than 300,000 s/f. Building 5 will be approximately 235,839 square feet and Building 6 will be approximately 297,663 square feet. The buildings will all be constructed with insulated precast panels and have ceiling height of32' clear for both buildings.

Site improvements will include built-out office space, surface parking and landscaping, and onsite water runoff management. The fire safety system will consist of an ESFR Fire Suppression System with a 1,500 GPM Fire Pump. Heating will be provided by Energy Rotation Unites to maintain 55 degrees Fat an outside temperature of 0 degrees F.

17. On a separate page, please give a detailed description of what the impact on your business will be if the proposed real property improvement is not constructed (e.g. loss of jobs, contract cancellations, loss of production, change in location, etc.).

As envisioned by the developer and the Town when the project was first reviewed by the Town and when the TIF and the ERA were approved, this development has unfolded in phases. With phase one and two complete and market interest in the product continuing, phase three is ready to move forward. If the abatement is not awarded, phase three cannot move forward. If that occurs, nearly 600,000 square feet of commercial space will not be constructed, which could prevent growing or expanding companies from calling Whitestown home and will continue to leave the site with a static assessed value.

19. Attach a schedule of the proposed tax abatement percentages in each year (note, if the proposed tax abatement schedule is other than a traditional tax abatement schedule the Town may impose additional fees for consideration).
