Braun’s exclusive SolidBody construction methods and over 30 years of manufacturing experience in the industry, provides a module that is lighter, stronger, and structurally warranted for the life, with no pro-ration. This construction technique gives our customers some of the highest payloads in the industry, as well the lowest centers of gravity, and much less chassis wear. Our construction methods provide a module that is remountable, time after time onto a new chassis, while still carrying the lifetime structural warranty.

Penn Care, Inc. is the warranty repairs, service, and remount facility of choice of Braun.

Penn Care, Inc. will honor this proposal price to other political subdivisions as requested in your bid specifications. We do reserve the right to increase the price if over thirty (30) days, due to increases in material cost, component parts, or package changes.
