Attachment to Real Property Application

10. Rego-Fix Tool Corporation is a family-owned business based out of Switzerland. Rego-Fix produces highly-specialized manufacturing machinery, such as a clamp-to-grip dies. The company has a well-known reputation for quality which allows it to sell into multiple markets where precision is required.

11. This project would entail the construction of an approximately 12,000 SF addition to the current HQ building. The new space would serve as a tech center which would showcase the company's product for customers and prospects. Note: The company believes this tech center would bring approximately 300 out-of-town business visitors to Whitestown a year.

17. If the new space is not added, Rego-Fix will not be able to grow its North American footprint as fast. Without the tech center, the company would choose to showcase their product's capabilities on the road at client sites. However, their preferred choice is creating a destination where the company's technology can be displayed in-person to clients and prospects.

Year 2 : 85%

Year 3 : 70%

Year 4 : 55%

24. The company and its owners are deeply involved in various civic and non-profit entities, including Outreach, Inc. and Thrive 360 (Kids Against Hunger). The company encourages employees to be active with a community giving match program.

25. The company prefers to utilize local contractors/subcontractors whenever commercially available. In addition, the company projects out-of-town visitors for its technology center will result in at least 300 overnight hotel stays in the community.
