### EXETER STATE ROAD 267 BUILDING 2, LLC

WHEREAS, the Town Council of the Town of Whitestown, Indiana (the "Town Council" and the "Town", respectively) has thoroughly studied and been advised of a proposed revitalization program which includes redevelopment or rehabilitation on certain property located in the Town in the Whitestown Business Park at 4765 S 300 E, as more particularly described in the map and including the parcel identified in <u>Exhibit A</u> attached hereto (the "Area"); and

WHEREAS, the Town Council has thoroughly studied and been advised by Exeter State Road 267 Building 2, LLC ("Exeter") of a proposed revitalization program which includes redevelopment or rehabilitation in the Area to include approximately 1,000,000 square feet of new buildings (in the form of one or two new buildings, the expansion of an existing 635,000 square foot building or a combination thereof) (the "Project"), as more particularly described in the hereinafter defined Exeter Application; and

WHEREAS, the Town Council has reviewed the information brought to its attention, including the Exeter Application, and hereby determines that it is in the best interest of the Town to designate the Area as an economic revitalization area pursuant to the Act; and

### ADDENDUM TO EXETER STATE ROAD 267 BUILDING 2, LLC TAX ABATEMENT APPLICATION

#### Question 10

Founded in 2006, Exeter is a real estate investment firm specializing in the acquisition, development, leasing, and management of industrial and related business park properties through an array of value add and core return private equity investment vehicles.

With over 130 million square feet of industrial buildings under management in primary markets across the United States and Europe, Exeter is a real estate partner to hundreds of tenants, vendors and investors.

Since its formation, Exeter has completed approximately 110 million square feet of acquisitions, nearly 20 million square feet of development and redevelopment, and 9.4 million square feet of dispositions.

Exeter owns multiple properties in Indian including 2 warehouses in Whitestown totaling over 1.1 million square feet.

#### Question 11

This application seeks to expand Whitestown ERA #3 (approved by Whitestown Town Council March 10, 2015 via Resolution No. 2015-07). The proposed project will include two phases. This application therefore contemplates more one assessment notice with overlapping abatement terms. The first phase might include the 500,000 square foot expansion of Building 3 to an approximately 1,200,000 square foot building spanning from ERA #3 in to the parcel immediately to the west (06-07-27-000-002.000-020 or the "Application Parcel"). The second phase will include a proposed 530,400 square foot building on the Application Parcel. See attached plan.

#### **Ouestion** 17

The proposed project requires abatement in order to compete with similar industrial projects in Whitestown and the other communities surrounding Indianapolis.

#### Disclosures'

IMERICALICE

- The abatement calculator is prepared by Umbaugh, a financial consulting firm, in conjunction with Hooster Energy, based on current indiane law. This calculation is intended to provide an ILLUSTRATIVE and PRELIMINARY indication of the level of property taxes and potential property tax savings for a proposed invasiment based on certain assumptions. Please read the Disclosures carefully. Companies must consult their own tax advisors to determine their actual tax liability and to prepare their annual Indena filings.
- To be eligible to receive property tax abatements in Indiana, a company must follow a specific application process. Please contact your Hooster Energy Representative for further guidance.
- Assumes taxes payable 2018 property tax relos, as provided by the Indiana Department of Local Government Finance.
- Real property in Indiana is subject to annual adjustments of assessed value to the market value of the structure based on annual sales data ("Trending").
- All personal property (equipment) is assumed to be new, and is assumed to be depreciated in Pool #2 (5-8 year depreciation [if o) for property lax purposes. A mixture of new
  and existing equipment (as well as a mixture of depreciation pools) will produce different tax savings results.
- Assumes a one-time investment in real and personal property. Staggering the investments may have a material effect on the actual value of property tax abelemants.
- Includes the calculation of Minimum Value Ratio (MVR) for tax abatement of personal property, which effectively increases the assessed value used in the abatement calculation when the taxpayer is subject to the 30% depreciation floor. The MVR equals the adjusted assessed value at the 30% floor divided by the depreciated assessed value of the equipment.
- It is assumed that the Circuit Breaker Tax Credit, which limits property tax liability to 3.0% of prose assessed value for commercial and industrial properties, is applied.
- Does not account for the application of the Local Income Tex (LIT) Property Tex Replacement Credit (PTRC) in any jurisdictions in which a LIY PTRC is applicable. The application of the LIT PTRC may reduce the property tex liability and the impact of the Circuit Breaker Tex Credit for a commercial/industrial texpare.
- The property lax abatement sevings value is an ESTIMATE based on preliminary information entered into this calculator. Actual abatement savings may differ metarially from the results of this calculator based on the liming of the investment, actual assessment of structures upon completion by the local assessing officiel, differences in depreciation pools for personal property, ennuel changes in tax rates, changes to indiana property tax law or regulations, or changes in assessment methodology.
