BBC

Pump and Equipment Company, Inc.

Total Net Price

\$ 107,029.00

Comments and Clarifications:

- Above equipment and pricing is based on provided documents. Pricing and equipment may require adjustments if additional documents or updates to project documents are presented.
- The Total Net Price includes the pump & motor Package, necessary mounting accessories, Installation, Startup & Freight. This does not include the adders below.
- **Additional Equipment:**
 - Heat Treated Ductile Iron Replacement Impeller. **\$ 3,860.00**
- **Factory Testing:**
 - H.I. Level 2B performance testing, Cornell certified report. **\$ 2,850.00**

The above price is net to you, delivered to the jobsite with freight included. Price is firm through quoted shipping cycle based on an order being received within Thirty days of quotation date. Delivery would be approximately 38-40 weeks from receipt of order with full engineering approval to proceed with manufacture. Lead times are subject to factory review at time of release of approved submittals. No sales and/or use taxes are included. Terms are Net Thirty days.

We hope you find our proposal acceptable.

Should you have any questions, please contact us.

Respectfully,

Taylor Stock
