Todd Barker – this is for the Padgett Commons/New City Development resolution. This resolution will cover two things. This will first remove the Padgett parcel from the Whitestown INDOT EDA and establish a separate EDA for the Padgett Commons Project.

Steve Unger – Explanation of resolution, the 2025-03 resolution creates a new EDA / TIF for New City Development. There is a commitment of 50% that will go to pay off the 10-million-dollar commitment to INDOT for the interchange.

Mark Pascarella – confirmed that the TIF will restart the 25-year time horizon with the newly created TIF.

Steve Unger – confirmed that is correct with the timing of the TIF, the 25 years will restart at the creation of the new TIF.

Kevin Russell – asked if the Wreck's TIF was intentionally left from the new TIF consolidated areas.

Steve Unger – confirmed that there was a conversation with Nathan Fox, Krohn,

regarding which TIF's should be considered for the consolidated TIF. The Wreck's site will be evaluated at a later date. The TIF on the Wreck's site has not started.

Todd Carlile – asked if the timeline for all the TIF's that are being combined will be restarted.

Steve Unger – clarified that not all TIF's will restart as there are bonds or lease obligations that are outstanding. The one that is restarting has no pledge to a lease obligation or a bond.

One bond will go to EDC as well and they will come back to the RDC for a public hearing as normal when creating a TIF. Explanting of the resolution of the road lease that will come in the future.
